

Basic IATA: Transportation of Dangerous Goods by Air Training

Course Description

This course is designed to provide participants with a basic understanding of the IATA regulations specific to the safe transportation of dangerous goods, including radioactive materials. This training utilizes a systematic approach that provides a logical flow to dangerous good shipments. This ensures that all necessary steps are completed to ship dangerous goods in full compliance with IATA and Department of Transportation regulations.

Successful participants receive a certification stating that the training meets the requirements of IATA, Section 1.5.

Who Should Attend?

Employees who are involved with preparation of Dangerous Goods shipments and are working with a certified shipper.

Additional Training Materials

You will need a current copy of the IATA Dangerous Goods Regulations to complete this course. We have these available for purchase.

Please call or e-mail us for pricing and availability.
