

RCRA Requirements for Satellite Accumulation Areas

Course Description

This course is designed for personnel who utilize Satellite Accumulation Areas for the accumulation of RCRA Hazardous Waste. Participants will learn:

- > Marking requirements for containers within Satellite Accumulation Areas
- > Importance of segregation of incompatible wastes
- > Management and inspection of containers within Satellite Accumulation
- > Pollution Prevention techniques and requirements
- > Responsibilities for the use of Satellite Accumulation Areas
- > Potential record keeping requirements
- > Interaction with regulatory agencies

Materials will be provided to facilitate completing the course.

Successful participants receive a certification stating that they completed the course.

Who Should Attend?

Personnel that generate RCRA regulated waste and place it into a pre-approved container within a Satellite Accumulation Area.

Course Duration: 4 hours

Retrain Frequency: 0 years
