GE Hitachi Nuclear Energy, LLC

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemption; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) issued an exemption in response to a request from GE Hitachi Nuclear Energy, LLC (GEH) related to the COVID–19 public health emergency (PHE). SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC issued an exemption in response to a request from GEH, dated April 30, 2020. The exemption allows GEH to submit a renewal application for the Morris Operation ISFSI license, SNM–2500, after the timely renewal due date of May 31, 2020, while continuing to be afforded protection of the timely renewal provision contained in § 72.42(c) of title 10 of the *Code of Federal Regulations* (10 CFR). GEH requested an extension of the date to submit the license renewal application to on or before July 31, 2020, as state restrictions on business activities as a result of the COVID–19 PHE have caused reduced staffing, impacted work schedules, and limited facility and information access necessary for GEH to prepare its license renewal application by the timely renewal due date. The extension will allow GEH to provide a complete license renewal application for NRC to review.

The NRC publishes a list of approved licensing actions related to the COVID–19 PHE on its public website at <https://www.nrc.gov/about-nrc/covid-19/materials/storage.html>.
