To achieve this principle, agencies are required to solicit and consider flexible regulatory proposals and to explain the rationale for their actions to assure that such proposals are given serious consideration." I certify that these regulations will not have a significant economic impact on a substantial number of small entities because they will apply only to overseas Federal employees, annuitants and their former spouses who are in same-sex domestic partnerships and are not married.

(2) The child of an enrollee and a domestic partner who otherwise meet the requirements of paragraphs (1) through (8) of the definition of Domestic partnership in this section, but live in a state that has authorized marriage by same-sex couples prior to the first day of Open Season, shall not be considered a stepchild who is the child of a domestic partner in the following plan year. The determination of whether a state's marriage laws render a child ineligible for coverage as a stepchild who is the child of a domestic partner shall be made once annually, based on the law of the state where the same-sex couple lives on the last day before Open Season begins for enrollment for the following year. A child's eligibility for coverage as a stepchild who is the child of a domestic partner in a particular plan year shall not be affected by a mid-year change to a state's marriage law or by the couple's relocation to a different state. For midyear enrollment changes

involving the addition of a new stepchild, as defined by this regulation, outside of Open Season, the determination of whether a state's marriage laws render the child ineligible for coverage shall be made at the time the employee notifies the employing office of his or her desire to cover the child. Coverage of children of domestic partners terminates on January 1, 2016, unless an agency requests, and OPM grants, the agency a continued coverage exception for enrollees living overseas. Continued coverage exceptions will only be granted to children of domestic partners living overseas and all coverage exceptions will end on September 30, 2018.

**III. Rulemaking Procedure**

Under the Administrative Procedure Act (5 U.S.C. 553(b)), an agency may waive publication in the **Federal Register** of a notice of proposed rulemaking and opportunity for comment requirements if it finds, for good cause, that they are impracticable, unnecessary, or contrary to the public interest. As authorized by 5 U.S.C. 553(b)(3)(B), the NRC finds good cause to waive notice and opportunity for comment on these amendments, because notice and opportunity for comment are unnecessary. The amendments will have no substantive impact and are of a minor and administrative nature dealing with corrections to certain CFR sections related only to management, organization, procedure, and practice. Specifically, the revisions include correcting a senior NRC management position title; correcting terminology for consistency in NRC regulations; and correcting contact information, references, typographical errors, and misspellings. The amendments do not require action by any person or entity regulated by the NRC, and do not change the substantive responsibilities of any person or entity regulated by the NRC.

**IV. Environmental Impact: Categorical Exclusion**

The NRC has determined that this final rule is the type of action described in 10 CFR 51.22(c)(2), which categorically excludes from environmental review rules that are corrective or of a minor, nonpolicy nature and do not substantially modify existing regulations. Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this rule.

**V. Paperwork Reduction Act Statement**

This final rule does not contain a collection of information as defined in the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) and, therefore, is not subject to the requirements of the Paperwork Reduction Act of 1995.

**Public Protection Notification**

The NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the document requesting or requiring the collection displays a currently valid OMB control number.

**VI. Plain Writing**

The Plain Writing Act of 2010 (Pub. L. 111-274) requires Federal agencies to write documents in a clear, concise, and well-organized manner. The NRC has

written this document to be consistent with the Plain Writing Act as well as the Presidential Memorandum, "Plain Language in Government Writing," published June 10, 1998 (63 FR 31883).

## VII. Backfitting and Issue Finality

The NRC has determined that the amendments in this final rule do not constitute backfitting and are not inconsistent with any of the issue finality provisions in 10 CFR part 52. The amendments are non-substantive in nature, including correcting a senior NRC management position title; correcting terminology for consistency in NRC regulations; and correcting contact information, references, typographical errors, and misspellings. They impose no new requirements and make no substantive changes to the regulations. The amendments do not involve any provisions that would impose backfits as defined in 10 CFR chapter I, or would be inconsistent with the issue finality provisions in 10 CFR part 52. For these reasons, the issuance of the rule in final form would not constitute backfitting or represent a violation of any of the issue finality provisions in 10 CFR part 52. Therefore, the NRC has not prepared any additional documentation for this correction rulemaking addressing backfitting or issue finality.

**Special Conditions: Gulfstream Aerospace Corporation Model GVII–G500 Airplanes; Electronic Flight-Control-System Mode Annunciation**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final special conditions; request for comments.

**SUMMARY:** These special conditions are issued for the Gulfstream Aerospace Corporation (Gulfstream) Model GVII–G500 airplane. This airplane will have a novel or unusual design feature when compared to the state of technology envisioned in the airworthiness standards for transport-category airplanes. This design feature is electronic flight-control-system (EFCS) mode annunciation. The applicable airworthiness regulations do not contain adequate or appropriate safety standards for this design feature. These special conditions contain the additional safety standards that the Administrator considers necessary to establish a level of safety equivalent to that established by the existing airworthiness standards.
