

ATKINS

Member of the SNC-Lavalin Group

Course Duration: Self-Paced

Retrain Frequency: 2 years

Course Topics:

- > Identification
- > Classification
- > Proper Shipping Name Selection
- > Packing
- > Marking
- > Labeling
- > Documentation
- > Radioactive Material
- > Examination

Prerequisites: None

Available Format:

Online – \$1,050.00 (includes current IATA Dangerous Goods Regulations)
\$650.00 (without regulations)

Bundle - \$1,275.00 (Take both courses - included Dangerous Goods Regulations)

Basic IATA: Transportation of Dangerous Goods by Air Training

Course Description

This course is designed to provide participants with a basic understanding of the IATA regulations specific to the safe transportation of dangerous goods, including radioactive materials. This training utilizes a systematic approach that provides a logical flow to dangerous good shipments. This ensures that all necessary steps are completed to ship dangerous goods in full compliance with IATA and Department of Transportation regulations.

Successful participants receive a certification stating that the training meets the requirements of IATA, Section 1.5.

Who Should Attend?

Employees who are involved with preparation of Dangerous Goods shipments and are working with a certified shipper.

Additional Training Materials

You will need a current copy of the IATA Dangerous Goods Regulations to complete this course. We have these available for purchase.

Air Transport of Radioactive Materials Training

ATKINS

Member of the SNC-Lavalin Group

Course Description

This course is directed solely towards the transportation requirements for the shipping of radioactive materials by the International Air Transport Association (IATA) Dangerous Goods Regulations (DGR). The presentation assumes knowledge of domestic regulations for radioactive materials and concentrates on the differences. AAHP has awarded sixteen (16) CEUs for this class. Materials will be provided to facilitate completing the course.

Successful participants receive a certification stating that the training meets the requirements of 49 CFR 172, Subpart H and IATA, Section 1.5.

Who Should Attend?

Employees required to certify that shipments of radioactive materials are in compliance with DOT's 49 CFR and the IATA Dangerous Goods Regulations for domestic air and international transport.

Additional Training Materials

You will need a current copy of the IATA Dangerous Goods Regulations to complete the online course. We have these available for purchase.

Please call or e-mail us for pricing and availability.
